

Candidate Prep Guide (External)

Overview

This page has been created to ensure our candidates are set up for success and help prepare them for the interview process at Camunda. You will find helpful documents that pertain to the specific role you are applying and interviewing for down below. For additional interview prep questions, please reach out to your Talent Acquisition Partner or your People Connect Specialist!

Preparing for Your Interview: Tips for Authentic Conversations

Please share your real experiences and thoughts during our interviews, rather than using scripted answers.

Here are some tips to help you prepare:

- Learn about our Product, company culture, our values, mission, and the work we do.
- Understand the specifics of the role you're applying for.
- Reflect on your relevant experiences and how they relate to the position. Prepare specific examples that demonstrate your abilities and alignment to the role.
- Consider any questions you may have about the role or company.

We're excited to get to know you!

Keep reading for more information about your specific department or details about your interview stage.
