

Fitness Offer

At Camunda, we recognize the importance of physical activity for our employees' well-being, especially since many of us spend long hours working behind a laptop screen. We strongly encourage and support our team members in engaging in various forms of movement throughout the day.

Moving our bodies is a natural and highly effective way to reduce anxiety and stress. Regular physical activity helps relieve tension, boost both physical and mental energy levels, and enhance overall well-being through the release of endorphins, the body's natural feel-good chemicals. Any form of movement that gets you active is beneficial, whether it's taking a walk, going for a swim, participating in a group fitness class, or engaging in any other activity that you enjoy.

We believe that by prioritizing and promoting physical activity, we can foster a healthier, happier, and more productive workforce. As part of our commitment to employee well-being, we encourage you to find ways to incorporate movement into your daily routine and take advantage of any resources or initiatives provided by Camunda to support your physical fitness goals.

Note on reimbursements for 2023 - The People Ops team will collect receipts from w/c 8th of January for submission & payout in February's payroll run. Communications on submission will come w/c 8th January.
